L. I. D. Council Offers Prizes for Gopher Tails

Two Ditches To Be Dug in Municipality. Machinery Purchased. Foreman's Wages \$2.50 a Day.

COUNCIL MEETING L. I. D. No. 138
A meeting of the council of Local Improvement District No. 438 was held on March 28th, with the following present: Chairman Douce, and Counsellors Gibson, Poelster, Thompson and Rasmussen.
After the reading and approval of the minutes of the last regular meeting the council was addressed by representatives of the Ingot Iron and Cullet Co., J. L. Case Machinery Co., J. P. Manell and the John Deere Co., respecting culverts and road graders. Price were asked for two road graders, one wheel grader, and five ships, when the following quotations were submitted:
J. L. Case & Co. \$817.00
John Deere Co. 650.00
R. F. Manell 634.00
The matter of purchasing this machinery was held over until a subsequent meeting.
A delegation consisting of B. D. Anderson, Adolph Rehnau and W. A. Howard addressed the council asking to have road opened up running north from W. A. Howard's, between sections 25 and 26, township 46, range 24, and sections 35 and 36-46-24. It was moved by Thompson-Gibson. That was moved by Thompson-Gibson. That Counsellor Poelster be instructed to have the road opened up, and that the secretary notify the several owners of land likely to be benefited by said ditch to meet at W. A. Howard's on Tuesday April 14th, to decide on the cost of construction of the ditch. Thompson-Gibson-That Ed. Walker be notified that he must keep ditch in repair running through the N. W. 1/4-25-22. Carried.
Gibson-That the Council, that they be engaged to do any survey work required by the district at a salary of \$6.00 a day, when at work. Carried.
Counsellors Thompson and Rasmussen, delegates to the municipal convention at Calgary, then gave a report of the convention, which was received and adopted.
The meeting then adjourned to meet on May 16th.

The officers and members of Wetaskiwin Lodge No. 2 I.O.O.F., will celebrate the thirty-fifth anniversary of the founding of the order on the continent on Sunday afternoon, April 26th by attending Divine Worship in the Methodist church in a body. An appropriate address will be given by Rev. W. L. Bradley B.A., and special music is being prepared. All members of Wetaskiwin Lodge and visiting brothers are requested to meet in the lodge room at 2.30 o'clock; service commences at 3.30. The members of the Hebrew branch are requested to meet in the church.

Pass the By-Laws on April 24th

Mayor Explains the Gas and Sewer By-Laws Which the Council Wish Ratified. Present Gas Well Produces Big Revenue.

To the Electors of Wetaskiwin, Ladies and Gentlemen.
You are asked to record your votes on Friday April 24th in regard to the money by-laws which your city council are submitting for your approval. That you may be in a position to take reason out the proper stand to take in voting on these by-laws, we propose to bring before you a few facts concerning our present gas well.
This well is drilled 151 feet. Gas was struck in several places, but our largest supply is at 137 feet. The time this gas was first struck, we had a much larger supply than we are getting from the well now, and your council is informed from reliable sources that should this same flow of gas be struck in the proposed new wells, that it can be kept up to the initial flow by using proper casing. But, aside from this, even as our well stands today, it is a paying proposition. During the months of Jan. Feb. and March of this year, the power house has been operated the greater part of the time on natural gas, and the saving on the coal bill as compared with the same three months last year is over \$400.00. The Power Dept. paid to gas account nearly \$350.00 and at the same rate for this year this will more than take care of the gas debenture we expect to present well. So that we are now in happy position of being able to make a great saving on our fuel bill at the power house and at the same time the gas well will carry its own debt and eventually repay the total cost.
Your council this year has given the matter further gas wells a great

The regular meeting of the city council was held in the council chamber on Tuesday evening with all the members present except Mayor Ellis and Ald. Cutler. Acting Mayor MacEachern in the chair.
After the adoption of the minutes of the previous meeting, the report of Chief James for the month of March was read and adopted. There had been eight arrests or summonses during the month, and the amount of fees turned over to the city was \$120.75.
The report of Dr. Stevenson, medical health officer, for the month of March was then read. The health of the citizens at this time, was generally good, although three cases of scarlet fever had been reported. A quantity of manure had been dumped in a slough on the Walker farm, but as this is outside the city limits, the matter has been referred to the provincial board of health for whatever action they deem necessary. As there are some clauses of the report the council wish to consider, the adoption of the report was left over until next meeting.
The next letter, from Mr. Waters, C.P.R. gas expert, is of great interest to the citizens at this time, and for this reason, we publish it in full.

Dear Sirs:-
As per request for report on proposed New Gas Well location, and et al I beg to tender these few remarks, trusting they may be of some value to you in securing a New Gas Supply.
I am of the opinion that the present Gas Well has been damaged through not being cased to the proper depth, and that the rock pressure was reduced too far thereby allowing air to seep in, and the gas to escape, and out of Gas Supply.
As regard the method adopted to obtain these few remarks, putting in perforated casing cannot see anything in its favor, as the caves would still fill up the perforation and make it much more difficult to locate in case you required to clear the well.
Further I do not think after we have drilled the proposed New Wells and are all connected to the same distributing system at the same time, you will experience any trouble with caving in of the wells.
In drilling well, I would drill as close to Gas Strata as possible, having regard to a good landing for casing, this precaution necessary to prevent escape of Gas outside of pipe.
As regards location of New Gas Wells in my opinion any place inside of the City Limits most suitable for economical distribution will be O.K. Keeping them about a quarter of a mile apart.
In making contract with drilling Contractors, I should accept tender for complete well shut in including all casing necessary to be left in hole, to pull when the well is to be put in operation. This with a good Borden Sealing Box, will give you access to the different Gas Stratas, in the different supplies of gas at different levels, which you would otherwise lose.
In closing I would suggest that you secure a Contractor who has sufficient knowledge of drilling operation and financial standing, to be able to fulfill his Contract to the letter, in a reasonable time, and to whom you have paid the full value of the work.
I have the honor to be
Gentlemen,
Yours very truly,

FATHER SAVES HIS SON
But for the presence of mind of C. L. Lake his son John would probably have been crushed underneath the wheels of the C.P.R. passenger train at Wetaskiwin Friday night. The young boy was in the act of jumping on the second end car of the moving train, when his foot slipped, and he fell towards the wheels. His father who was waiting for his son to jump on first, saw the mistake in time to grasp his son by the arm and pull him to safety. The train was stopped and the father and son boarded it and came to Edmonton.
Mr. Lake and his son were passengers on the train from Calgary and had got off at Wetaskiwin to see some friends. They covered under the starting signal was given and they waited until the train had got in motion. The son then attempted to jump on the slowly moving train when he missed his footing. The father, fortunately was right behind and managed to grab his son's arm in time to pull him away from his precarious position. Had he not done so the boy would probably have had both legs severed.

The bride was assisted by her sister, and a sister of the groom, Miss A. Broder, the groom and Mr. Fred Bebler were the groomsmen. After the ceremony, the happy party drove to the home of the groom's parents, where a sumptuous repast was partaken of, and where a most enjoyable time was spent in celebrating the most important event. If the amount of company showered upon the bride is to be considered a criterion of the esteem in which she is held, then Miss Bauer was a very popular and esteemed bride. The young couple will take up their abode on the groom's farm, six miles west of the city.

THE PURE BRED BELGIAN DRAFT STALLION

MAYEUR

[Imp.] 627

Will stand for mares for the season, 1914.

DESCRIPTION AND PEDIGREE

MAYEUR (Imp.) 627 is a tick type of Belgian draft, and was bred by Mrs. Philippe De Donder, Merchtem, Belgium, and was imported in April, 1913 by Jos. F. Snyers of Wetaskiwin. He is also a good show horse, having won the first prize in a big field at Lethbridge fair last season. His dam is Flavie de Merchtem (2445) by Marie de Merchtem (855). Sire—Béat Luyzen (22238) by Cathare, (4688).

CERTIFICATE OF PURE BRED STALLION

The pedigree of the stallion Mayeur (Imp.) 627 (Vol 22) male, described as follows: Bred, Belgian Draft; color, bay; marks, right extending between nostrils, spot on lower lip, right front and right hind feet white; foaled in the year 1909, has been examined in the Department, and I hereby certify that the said stallion is of pure breeding, and is registered in a stud book recognized by the Department.

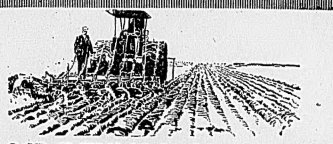

Dated at Edmonton, Alberta, this thirtieth day of March, 1914.

G. P. BERTENSHAW, Acting Deputy Minister of Agriculture.

TERMS: \$15.00 to insure a standing colt; \$10.00 for the service, payable at the end of the season; \$5.00 for single service, payable at time of service. All accidents to mares at owner's risk. All insured mares must be returned regularly to the horse or they will be charged insurance whether in foal or not. Parties disposing of mares before foaling time will be charged insurance whether in foal or not.

ALBERTA MAYORS MEET MINISTERS

Hon. C. W. Cross attorney general, Hon. C. R. Mitchell, provincial treasurer, and Hon. Wilfrid Garfield, minister of municipal affairs, received a deputation of Alberta mayors in the executive chamber yesterday afternoon who urged what is regarded by them as a more equitable division of liquor license fees between the province and the municipalities.

Mayor McNamara headed the delegation and read the resolution adopted yesterday morning at the meeting held in the city council chamber. He also said:

"The present system works a hardship. The maintenance of a police force is made necessary by the liquor traffic. I venture to say that 65 per cent of the cost of maintaining law and order in the towns and cities of the province may be assessed to it. Edmonton spends \$185,000 annually on its police force, while cities, to a greater extent, because of bars and hotels. Our tax rate is necessarily higher than formerly, owing to a reduction of the grants to the schools. Mayor Simnett, of Calgary, concurred:

"We realize," he said, "the necessity of securing funds for extended provincial demands. We believe however, that the cost of law enforcement is connected in a measure with our cities, because the license fees which the government collects, for which we should receive a portion. Our cities are growing rapidly; the same is true of our towns; and the expense of administration is increasing more rapidly than the growth."

Mayor Twomey of Camrose pronounced the case for the smaller communities. "We are not here to criticize," he said, "under the former system we were collecting an equal amount with the province and we consider that we earned it. While it may be true that the municipalities were lax in prosecutions, we found it necessary to employ extra police help to control the liquor traffic; we have also incurred the expense of paying magistrates to handle cases, 75 per cent, of which are drinking cases and 15 per cent of the balance readily traced to drink. Our annual expenditure to preserve law and order is \$1500, as heavy a burden to us as Edmonton's expenditure is to its citizens."

In conclusion the mayor of Camrose said:

"We do not question the right of the government to tax the license fees if the money is required, but we do not wish to criticize the justice of their taking it all. We think we are entitled to a share."

Hon. C. W. Cross, who responded on behalf of the cabinet, said the ministers were glad to be able to see the point of view of the municipalities and that the matter would be laid before Premier Sifton on his return from England. He announced that it was intended to appoint a committee of police and police magistrates through the province, paid by the provincial government—Bulletin.

AGRICULTURAL STUDENTS REGISTERING NOW

The School of Agriculture at Olds closed on March 28th, and students had the students returned to their respective homes than applications be made to come to the Principal Elliott for next year. In one week applications were received, and literally dozens of letters are being received asking for information with regard to the course, and also for particulars as to the cost of same. So as to give the students an idea as to what next year's work will be, we might state that the course as put on at the School of Agriculture is designed to be thoroughly practical. The schools are operated by the Provincial Government and are entirely free of charge, except the cost of board and lodging, which students have to care for themselves. All homes where students board must be in the Principal of the School, and students will only be permitted to board in homes that are registered. Board and room may be secured at from \$5.00 to \$5.50 per week and outside of this, the cost of the winter's schooling is very little.

From \$5.00 to \$7.00 will cover all expenses in connection with notebooks, text books, etc. The students are also asked to deposit \$5.00 which is called "caution money." Each student is given a certain equipment of chemical apparatus, and blacksmith and carpentry tools, and if these are returned to the instructor in charge the \$5.00 "caution money" is returned to the students. Applications are that the Olds School of Agriculture will be filled to the doors again next fall, notwithstanding the fact that an additional large live stock judging pavilion is being added to help care for the very large enrolment.

All those who are interested in the School of Agriculture, and would like further particulars, are invited to correspond with:

W. J. ELLIOTT,
Principal, School of Agriculture
Olds, Alberta.

PROPHETESS OF PARIS.

Woman Who Has Fascinated the Gay City by Prediction.

One of the most extraordinary persons in Paris to-day is Mme. de Thebes—prophecy. Alexander Dumas knew of her extraordinary powers of clairvoyance and saw many proofs of it. From then till now her fame, instead of decreasing and disappearing as is generally the case with the modern prophetess, has increased in a most remarkable manner.

The young Dumas was Mme. de Thebes' grandfather, and when she was endeavoring to decide what profession to adopt, after had health prevented her from going on the stage, she was drawn into a study of the magic and mysteries of the East, by a novel which Dumas' father was then engaged upon—"La Route de Thebes." The title of the book—never finished, by the way—suggested to the young lady an appropriate name for herself as prophetess.

She made a special study of the lines of the hand, benefitting by the instruction of the best "masters." She was very beautiful, and ever today, when her hair is white, her face preserves its freshness, charm, and regularity of line. Soon all Paris was flocking to her rooms, so that she might lift for them a corner of the "veil" which she called the "veil of fate."

Her success in prediction has been striking and unceasing. Before 1872 dawned, she said it would be a year of disaster. Many of the great and tragic happenings of recent times have been foretold by her, and she had warned two prominent persons who went down in the Titanic of the fate in store for them.

Mr. Stead was an old friend of hers. One day she "read his hand," and told him that the water was his enemy. The famous journalist replied, "Yes, Madame, that 'sees esprit' France" would have any day be a man of death by drowning.

A little while after his marriage Col. Astor consulted Mme. de Thebes. "Beware of the sea!" she said to him. "That is serious," Col. Astor replied, "for I am so often on it."

The terrible Paris Charity Bazaar fire in which 120 women and children lost their lives, was predicted by Mme. de Thebes. She told the Empress Elizabeth of Austria to guard herself against an assassin, whom one would have thought that that royal lady would have been one of the last to draw upon herself the anger of the anarchists.

"That," responded the Empress, "will be a beautiful death for a woman like me."

Mme. de Thebes, is gloomy about the future. "The history of the world will grow darker," she says.

In her rooms she keeps 62 models of elephants—the best, she says, ivory she will use for the ivory she brings most often, because in obtaining it she must use intelligent and malicious animals must be killed. Whenever she comes into possession of anything in ivory, she hurries it.

The hand also calls "The Book of Life." A record of our acts, misdeeds, dangers, successes, failures, is written there—Chronicle.

Keeping Ponds Clean.

Copper sulphate is often used for destroying the algae which grow in ponds. But precautions must be taken, for unless the right proportion of sulfate is used, any fish which may be in the pond will be injured. The proportion of copper sulphate used in ponds at New Gardens, London, England, is one part to from 750,000 to 1,000,000 parts of water. Sulphate of copper in a powdered state is placed in a porous bag and dragged through the water until dissolved. The water in St. James' Park, London, it might be mentioned, has for two summers been kept free from scum by this method.

Landlord and Tenants.

Visitor (at poorhouse)—Where did that fine-looking pauper come from? Superintendent—The City. He owns the St. Fashion flats.

His goodness! "Why is he here?" "He charges such high rents that they have been empty since the second year."

"Huh! He seems to be on familiar footing with good many of the other paupers."

Yes; they are the people who were his tenants the first year."

To Keep From Growing Old.

A swindling firm once advertised that it would send for the sum of 90 cents a recipe which, if followed to the letter, would keep folks from growing old. Some credulous persons answered the advertisement, remitting the required fee, and received the following reply:

We would advise all such idiots as you to commit suicide at about the age of twenty-five."

More Than She Asked.

She—If we are going to be married you must give up smoking.

He—Yes.

She—And drinking, and your clubs.

He—Yes.

She—Now, doesn't anything else suggest itself to you that you will give up of your own accord?

He—Yes.

She—What?

He—All idea of marrying you.

At Her Word.

"Why do you not come to me for advice any more?" said the medium to her former client.

"Well," said he, "the last time I was there you told me that if I wished to save enough to get married on I must stop spending money foolishly, and I took you at your word."

Realistic.

Mrs. Brush—Did you see my husband's painting? "The Country Road" at the exhibition?

Mrs. Painter—No, I did not. Was it good?

Why, it was so natural they had to cut the road every day to keep the dust from going on everything."

The Famous Byron's TROUBADOURS

Most Talented Colored Company

on tour. Having played under the auspices of most every church in United States. Wish to quote the following from M. O. Brink, Red Bluff, Cal.:

No finer entertainment was ever given in Red Bluff than the Musical program furnished at the Opera House last night by the Byron Troubadours. The versatility of the seven men who constitute the company, is short of marvelous, they not only playing a great variety of musical instruments, but each member of the company possessing a superb voice, if any criticism is to be offered at all it is because the audience wanted them too hard in the way of encore, every member was an artist, the M.E. and Baptist churches that are responsible for the appearance of the Company, here deserve the thanks of all for placing such features within the reach of all. The Troubadours performs at the Angus April 24th one night. Prices: Children, 25c.; General admission 50c.

METHODIST CHURCH

The cantata "Resurrection Light" rendered by the choir of the Methodist church on Sunday evening, last, was of a very high order and fully appreciated by the large audience present, and those who followed closely the story as brought out the breaking down of the Old Jewish exclusiveness by the life, death and resurrection of Christ and thus opening the door to the Gentiles, could not help but be impressed by the seriousness and religious feeling that pervaded the whole. The soloists were Miss Smith, Miss Thorley, Miss Hoare, Mrs. Torrance, Mrs. Williamson, Mr. Gardner and Mr. and Mrs. Conn. The quartette by Miss Thorley, Mrs. Williamson, Mr. Gardner and Mr. Conn was most beautifully rendered. The Methodist church is to be congratulated upon having a choir that can render such a difficult cantata, and Miss Smith, who has spent so much time for the past couple of months, deserves a great deal of credit.

EV. LUTHERAN—ZION CONGREGATION

Services next Sunday at 10:45. Fr. Wypplich will preach. Next Sunday, April 19, the class at Brightview is to be examined and confirmed at the same time, holy communion will be celebrated. The service is to begin at 10:45. The children to be confirmed are Wm Steinko, Albert Steinko, Orlie West, Olga Grinde, Ahnste Gosske and Ida Gosske.

On Monday evening next week April 20, there will be a German song service in Zion church. The choir of the church also a mixed quartette, a children's chorus, and a minister's quartette will take part in the program, which also includes a solo by Rev. Scherwemann, an address by Rev. Meyer, a psalmody by M. Schneider and Rev. Eberhardt will take the altar service.

SALVATION ARMY

The Salvation Army's Annual Week of Self Denial commences on April 19th. The doors of the Salvation Army are open to all classes, denomination and nationality.

The local work of the City is probably come to your notice during the past year. This branch of the work is progressing, but at this time the Army is appealing to the generosity of the Citizens of Wetaskiwin and beg to solicit the co-operation of all to better enable us to extend the Kingdom of God in this City as well as in other Cities.

The subscription will be allocated to the following branches:—

Local work, Missionary Work, Social, Rescue, Industrial Homes.

IMMANUEL CHURCH.

Holy Communion Sunday next at 8 a.m. Matins, 11 a.m. Sunday School and Bible Class 2:30 p.m. Evening Song 7:30 p.m.

The Easter music and especially the Anthem "Awake thou that sleepest" was well rendered by the choir on Sunday evening last.

Rev. R. W. W. Alexander B.A.

The Rev. R. W. W. Alexander has resigned the Parish of Wetaskiwin to take up pioneering work for the Diocese. This was arranged at the beginning of the year after the formation of the new diocese of Edmonton and definitely decided in March. He leaves Wetaskiwin at the end of June. He still remains Rural Dean of Wetaskiwin and district. He has already during his short residence here, traversed over four thousand miles of country.

The pictures shown at the Eastern Service on Good Friday evening at Immanuel Church were a source of great admiration to the large congregation. Dore's remarkable picture "The Vale of Tears" was a sermon of consolation in itself. Mrs. H. C. R. W. gave a suitable solo with much feeling and expression.

C.N.R. STARTS ON CALGARY-EDMONTON BRANCH

Calgary, April 16.—Grading has been started on the new Calgary-Lacombe-Edmonton line of the C. N. R. and already 26 miles—a portion at each end of the road—have been completed this year and will give the C. N. R. the most direct route from Calgary to Edmonton.

Lead fall a short distance of the Calgary-MacLeod line—which is a continuation of the Calgary-Edmonton road—was completed, and work will commence at once on the construction of the balance of the road just as soon as the gangs can be hired. The new Calgary-Lacombe-Edmonton line is graded out of Calgary for several miles east. This work was completed, the surveying accomplished and the grading also started at the Edmonton end of the line without any one outside of the company knowing anything about it. The road is as straight as an arrow, according to

the route map, and has no twists or turns. It runs almost parallel to the Calgary-Edmonton C.P.R. line, generally opening and is absolutely a new line into this city, not overlapping any part of the other line of C.N.R. The new line runs directly north to Red Deer, where it crosses the C.N.R. line from Warden to the Braemar mines. It continues north through Lacombe, through Edmonton, and thence to Athabasca Landing.
